MEMORANDUM FOR: Director of Central Intelligence

FROM : PB/NSC Coordinator

SUBJECT : Presidential Briefing Material []

25X1

1. We have turned around some of the material we got back from you this morning. I wanted to send you what we had this evening since, per your schedule, tomorrow evening you will be at Wolftrap and may not have too much time to review anything further prior to Friday's Pre-Brief.

[]

2. In the attached folders you will find:

a. Revision to [] talking points. (This has been farmed out for comment, which we will get tomorrow morning, and integrate with any further thoughts of yours.)

c. [] In this folder you will find two items:

(1) Left Side: Your notes with inserts as provided by [] (The data regarding the grain and other embargoes will not be available until tomorrow morning. We will insert that along with any other thoughts you might have.)

25X1

(2) Right Side: As I mentioned to you [] had some thoughts regarding the way [] might be used as a means of addressing political questions, especially regarding Soviet foreign policy. Here he has provided a draft outline of how such a briefing might go. He has been in touch with [] and they do not believe there would be any problem in developing this type of briefing. [] has seen your notes which are on the left side. He believes that, if you would like his outline developed, he could easily incorporate some of the detail regarding the military situation and the Soviets' military options into his framework (he has noted, at the end of his outline, where this would fit in).
